

Agrani Sinha

Jacksonville, FL

agbrian521@gmail.com | [Portfolio: agranisinha.github.io](https://agranisinha.github.io)

PROFESSIONAL SUMMARY

Health Informatics graduate student with experience in clinical informatics, healthcare analytics, and digital health solutions. Skilled in developing AI-driven applications and data-informed systems to support healthcare innovation and operational efficiency.

EDUCATION

- **University of North Florida — Jacksonville, FL (2025 – Present) – M.S. (Health Informatics)**
- **Jaypee Institute of Information Technology — Noida, India (2015 – 2020) – Integrated Master of Technology (Biotechnology)**

LEADERSHIP & INITIATIVES

President (2026-27)— Health Informatics & Analytics Club (HIAC), University of North Florida

- Lead strategic initiatives, professional events, industry collaborations, and student engagement activities focused on healthcare informatics, analytics, AI, and digital health innovation.

Marketing Chair (2025-26)— Health Informatics & Analytics Club (HIAC), University of North Florida

- Lead marketing and digital outreach initiatives promoting healthcare informatics events, guest lectures, and student engagement activities across university platforms.
- Initiated and produced the **HIAC Podcast**, coordinating speaker outreach, promotion, and networking events featuring healthcare informatics professionals discussing digital health, clinical informatics, and healthcare technology innovations.

PROFESSIONAL EXPERIENCE

Public Health Intern – Jacksonville Urban League – Jacksonville, FL (Present) – Developing Maternal Health Application using Flutter- *Healthcare Continuum*.

Clinical Informatics Intern – Alivia Care – Jacksonville, FL (Oct 2025 – Feb 2026):

- Analyzed clinical workflows and supported EHR-based reporting initiatives to improve healthcare data accessibility.
- Earned WellSky certifications and collaborated with informatics teams to interpret clinical data for operational insights.

Data Science Analyst – BluCognition — Pune, India (Mar 2022 – Jun 2023):

- Developed TensorFlow-based CNN models to automate bank statement extraction and financial document classification.
- Built machine learning pipelines to structure financial data for analytics and automation.

Academic Research Associate – Digiversal Consultant — Noida, India (Dec 2020 – Mar 2022):

- Conducted technical research and data analysis for IT and analytics consulting projects while preparing structured reports and technical documentation to support research findings and project deliverables.

Bioinformatics Research Intern – Institute of Bioinformatics and Applied Biotechnology (IBAB) — Remote (Jul 2020 – Dec 2020):

- Curated biological datasets and assisted in genomic data organization to support the development of a COVID-19 research meta-database.

Microbiology Trainee (Intern) – SRL Diagnostics — Noida, India (Jun 2018 – Jul 2018):

- Conducted microbial testing using culture techniques, microscopy, and antibody-based diagnostic assays while supporting laboratory diagnostic workflows with BD blood culture systems.

Content Developer (Intern) – Sanfoundry — Remote (Dec 2017 – Mar 2018):

- Developed and curated 1000+ bioprocess engineering MCQs and technical learning content for an online engineering education platform.

VOLUNTEER

Volunteer – Game Development & Graphic Design- Lemonade Stand Bootcamp — Pensacola, FL (May 2025 – Aug 2025): Designed 2D/3D visual assets using Canva and Blender for educational game projects while collaborating with cross-functional teams to create engaging interactive learning content.

RESEARCH & TECHNICAL PROJECTS

- **ML Drug Discovery – CDRI, Lucknow:** Built SVM models (96.8% accuracy) for tuberculosis inhibitor prediction using MATLAB and AutoDock.
- **Inventory Management App:** Flutter app with Google Sheets backend for real-time inventory tracking.
- **Bio Calculator App:** Lab calculation tool (HTML, CSS, JavaScript) published on Google Play Store.
- **Respiratory Health Chatbot:** Web chatbot built with HTML, CSS, and Vue.js.
- **AI Plant Identification:** TensorFlow computer vision model with voice feedback.
- **Connect4 Desktop Game:** JavaFX-based implementation with GUI and game logic.
- **Python AI Games:** Chess and Checkers with AI gameplay functionality.

TECHNICAL SKILLS

- **Programming Languages:** Python, Flutter, Java, C, C++, JavaScript, HTML, CSS
- **Machine Learning & AI:** TensorFlow, Machine Learning, Computer Vision
- **Data & Analytics Tools:** Jupyter Notebook, Google Colab, SAS, Microsoft Excel
- **Healthcare Informatics Tools:** EHRGo, WellSky
- **Development Tools:** Android Studio, GitHub
